

Bosch Conference and Congress System

LBB 3330/50 Delegate Unit

- Compact, attractive delegate unit
- Microphone with flexible stem and light ring
- Built-in loudspeaker
- Two headphone sockets
- Built-in volume control for headphones

The LBB 3330/50 delegate unit enables delegates to speak and listen to the proceedings via a loudspeaker or headphones. This stylish and ergonomically-designed unit includes a microphone with a red indicator ring which illuminates when the microphone is on. To prevent acoustic feedback, the built-in loudspeaker is muted when the microphone is on. Two 3.5 mm (0.14 in) stereo headphone sockets (wired for mono) allow two pairs of headphones to be connected so two delegates can simultaneously use the unit. The headphone volume level can be adjusted on the unit for maximum comfort. It is also possible to connect a tape recorder to one headphone socket, and use the other headphone socket to listen to the proceedings.

Controls and indicators

- Microphone with light-ring indicator which illuminates when the microphone is on
- Loudspeaker, automatically muted when microphone is on and/or headphones are connected
- Microphone on/off button
- 'Microphone on' indicator (red LED)
- Rotary volume control for adjusting headphone volume

Interconnections

- 2 m (78.7 in) long cable terminated with a moulded 7-pole circular connector for loop-through connection to delegate unit or CPSU
- 7-pole circular female socket for loop-through connection to delegate units
- Two 3.5 mm (0.14 in) stereo headphone sockets
