

DC-W50

Wireless Docking Station

LumensTM
Brilliance by Design

The LumensTM DC-W50 wireless base supports 2.4GHz and 5GHz wireless transmission with a distance of up to 49 feet or 15 meters. It is compatible with Lumens DC125 document camera. Using the wireless base and DC125 Flyer with an iPad, allows users to present lessons and demonstrations from anywhere in the room. It's an innovative presentation tool for teaching, meeting, training, conferencing and other functions.

Main Features

- No Cords
- Supports 2.4GHz and 5GHz wireless transmission with a distance up to 49 feet or 15 meters
- Supports Full HD 1080p, 30fps output resolution
- Supports wireless and HDMI transmission simultaneously
- Supports 8 hours of continuous operation
- Broadcast and share live images within your collaborative learning environment

More Details

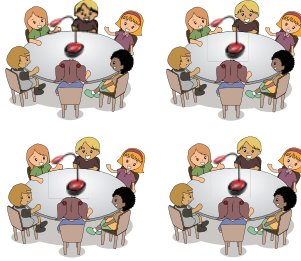

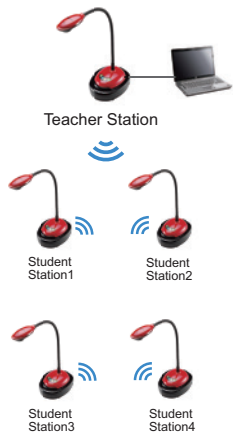

Supports Wireless and HDMI-out Transmission Simultaneously

The DC-W50 supports wireless and HDMI-out transmission simultaneously. Collaborates with the Ladibug DC125 that can display the high definition live image to a projector or Full HD-TV making it a powerful presentation tool.

Supports Wireless Control with iPad

The DC-W50 supports IEEE802.11 2.4GHz and 5GHz wireless transmission with a distance of up to 49 feet or 15 meters. Using an iPad with the Lumens LadibugTM app allows users to control the DC125 remotely. Presenters can use real-time annotation over a live image for optimal instruction and interaction.

Broadcast and Share Live Images Within Your Collaborative Learning Environment

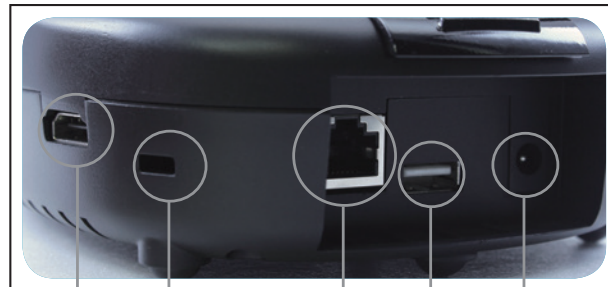

The teacher and students can select the option to share a live image from their location in the classroom by using a Ladibug™ with a DC-W50 wireless base. The image is displayed at the front of the classroom but also on the students laptop computers or iPads so they can study the material from where they are seated. This technology allows students to enhance their learning skills on a higher level.

Specifications

Wireless Standard	IEEE 802.11 g/n
Wireless Working Frequency	2.4/5 GHz ISM radio band
Transmission Distance	15m (49 feet)
Full Charge Required	3 hours (for 8 hours continuous operation)
Power Consumption	8W (Maximum)
Weight	600g (1.33lbs)
Dimensions	182mm x 139.3mm x 57mm (7.2" x 5.5" x 2.2")
Warranty	Wireless Base is 1 year
AP/ Client Mode	Yes

User Interface

- DC-W50

HDMI OUT Kensington Lock Port Ethernet USB 2.0 DC IN
