Two-Way In-Wall Speakers with 6.5" Woofer

System **INTEGRATOR**
S P E A K E R S E R I E S

DESCRIPTION

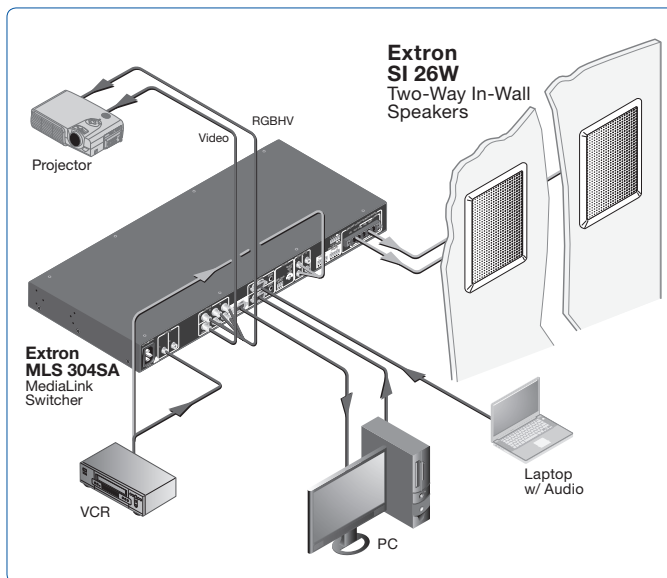

The Extron **SI 26W** two-way in-wall speaker features a ferrofluid-cooled, titanium-coated dome tweeter and a long-throw woofer to deliver balanced voice and music reproduction. Special consideration is given to the crossover from the woofer to the tweeter, to provide a smooth transition from low to high frequencies. Voice reproduction from documentaries is natural and clear sounding. Music reproduction is enhanced with the exceptional low-frequency response of the long-throw woofers. The pivoting dome tweeter allows aiming of the mid and high frequencies for best area coverage.
