Applications

The IP Network Emergency Station is suitable for indoor and outdoor embedded installation. One touch to call duty officer or a pre-designated target terminal for intercom communication or background music broadcast.

Features

* Rectangular embedded design, simple appearance with elegant lines and craft
* One touch for help, a microphone to call duty room, realizing fast connection, simple and quick operation.
* With built-in microphone. Built-in 10W a full-range monitor speaker with clear and loud sounds
* Support hands-free calls and broadcast receiving.
* Support local one line input; one line audio auxiliary output; externally connect to amplifiers.
* Wupport local emergency button signal.
* Support local electronic door locks and local alarm indicator (select 1 from 2).
* 12V DC power interface.

Specifications

Model	T-6703(D2)
Network Interface	Standard RJ45 input
Support Agreement	TCP/IP, UDP, IGMP(multicast)
Audio Format	MP3/MP2
Sampling Rate	8K～48KHz
Transfer Rate	10/100Mbps
Audio Mode	16-bit stereo CD sound quality
Output Frequency	20Hz～16KHz
THD	≤0.3%
S/N Ratio	>70dB
Auxiliary Line Input Level	400mV industry-standard voltage wire terminals
Audio Output Level	775mV industry-standard voltage wire terminals
Audio Output Level	1KΩ
Operating Temperature	-20℃～+60℃
Operating Humidity	10%～90%
Power	≤15W
Power Supply	DC12V
Dimensions	240x115x50mm
Weight	1Kg
